

CRH Social Workers Making a Difference

social work **MATTERS**

2012

National Professional Social Work Month

Social Workers throughout the nation celebrate National Social Work Month in March. This year's theme, "**Social Work Matters**" highlights the many ways that social workers help in communities across the country.

Community resources are a significant issue for Central Regional Hospital social workers who struggle daily to find services for our patients in the community.

**If you see a Social Worker
let them know they are appreciated!**
